PROFESSIONAL SUMMARY

Computer Science graduate (GPA 3.84/4.00) with 1 year of professional experience as a Backend Engineer. Proficient in building production-grade systems using Go, TypeScript/Node.js, PHP (Laravel), and Next.js. Experienced in designing event-driven Microservices (NATS JetStream, gRPC, Saga pattern), Multi-Tenant SaaS platforms with strict data isolation, and comprehensive application security (RBAC, HttpOnly JWT, race condition prevention, SatuSehat Kemenkes HL7 FHIR integration). Comfortable collaborating across teams using Git/GitHub in agile development cycles.

WORK EXPERIENCE

Backend Engineer — PT. cmlabs Indonesia Digital *June 2025 – June 2026*

- Developed and maintained REST APIs using PHP Laravel, Go, and TypeScript.
- Designed MySQL/PostgreSQL database schemas and optimized queries to improve application performance.
- Collaborated with frontend and QA teams throughout the development cycle using Git/GitHub.

PORTFOLIO PROJECTS

Task & Project Management *Full-Stack — Node.js, Express, TypeScript, MySQL, Sequelize, Socket.io, Next.js*

- Multi-workspace REST API with RBAC (Owner, Admin, Member, Viewer), real-time updates via Socket.io, Cloudinary uploads, Swagger documentation; frontend built with Next.js, React, and Tailwind CSS.

E-Commerce *Full-Stack — Node.js, Express, TypeScript, Prisma, MySQL, Nuxt, Vue*

- REST API with transaction-safe stock deduction, auto-cancel pending orders, Midtrans/Xendit payment webhooks, JWT access & refresh token; frontend built with Nuxt 4 + Vue 3 including catalog, checkout, and admin dashboard.

Apotek Digital — Pharmacy SaaS Platform *Full-Stack — Hono.js, TypeScript, Drizzle ORM, PostgreSQL, Next.js 14*

- Multi-tenant pharmacy SaaS (FEFO POS, inventory, purchasing, accounting) with strict data isolation, 6-level RBAC, pessimistic row-locking (SELECT FOR UPDATE), and SatuSehat Kemenkes API integration (HL7 FHIR).
- Next.js 14 App Router frontend (31 production pages): real-time dashboard, AI Pharmacy Assistant (Gemini API), financial report export, HttpOnly JWT, and rate limiting.

Teh Baling — Booth Operations ERP *Full-Stack — Hono.js, TypeScript, Drizzle ORM, PostgreSQL, Next.js 14, Leaflet*

- Multi-outlet beverage booth ERP: shift management, sales reporting, stock tracking, Recharts dashboard, GPS geofencing (Haversine 200m radius), 3-level RBAC, and Excel export via ExcelJS.

Lecturer & Student Attendance System *Full-Stack — Express, TypeScript, PostgreSQL, Prisma, Flutter*

- REST API and Flutter mobile app for QR Code attendance (students & lecturers) with JWT auth, RBAC, and Scalar/OpenAPI documentation.
- Features: class schedules, attendance, leave requests, push notifications, PDF reports, Excel import, and Riverpod state management.

Order Processing System *Full-Stack — Go, Fiber, PostgreSQL, NATS JetStream, gRPC, Next.js*

- Microservices (Go + Fiber) for order, inventory, payment & notification using Saga choreography, NATS JetStream, gRPC, and per-service PostgreSQL databases.
- Next.js frontend: product catalog, order management, admin dashboard, Saga Timeline, and real-time status updates via WebSocket.

EDUCATION

SMK Telkom Malang *2019 – 2022*

Major: Software Engineering, GPA 85. Sawojajar, Kedungkandang, Malang City, East Java.

B.Sc. in Computer Science — UIN Maulana Malik Ibrahim Malang *2022 – 2026*

GPA: 3.84/4.00 | Dinoyo, Lowokwaru, Malang City, East Java

Thesis: Nutritional Status Classification (Stunting) in Toddlers using Support Vector Machine with Multiple Kernel Learning (Linear & RBF Kernels), implemented as a web app using Flask and MySQL.
